Experience

Findes **Vitoria - ES**

Software Developer / AI ML Jr *07/2025 - Present*

- Promoted to Junior Developer, expanding my scope from web development to Artificial Intelligence and Machine Learning projects.
- Participated in the design and development of fullstack applications integrated with AI resources.
- Worked with Python, LangChain and Machine Learning models, creating prototypes and pipelines for AI-based solutions.

Software Development Scholar *12/2024 - 06/2025*

- Worked on frontend software development, creating responsive and intuitive interfaces with React, Tanstack Router and TypeScript.
- Created low and medium fidelity wireframe prototypes in Figma to validate user flows and interface design.
- Participated in project requirements gathering and documentation, contributing to the definition of functionalities and application scope.

Software Development Intern *08/2023 - 11/2024*

- Worked as Fullstack Developer with React and Nest.js, contributing to the development of modern and scalable web applications.
- Worked in Dockerized environment, implementing good practices for versioning and code organization.
- Collaborated in multidisciplinary teams applying agile methodologies (Scrum)

Foursys **Remote**

Mobile Development Intern *04/2022 - 02/2023*

- Worked as Android Developer, developing and maintaining mobile applications with Java and Kotlin.
- Designed and implemented interface components focusing on usability and responsiveness.
- Used version control with Git/GitHub/GitLab for collaborative development.

Skills

- **Frontend:** React, Next.js, TypeScript, TailwindCSS, Tanstack Router, Vite, Styled-Components
- **Backend:** Node.js, Nest.js, Elysia, Bun, Golang, Python, Fastify, Hono
- **Database:** PostgreSQL, Prisma ORM, Drizzle ORM, Fiber, Supabase
- **Artificial Intelligence:** Python, LangChain, Machine Learning, RAG, AI-SDK, AI Agent, LangGraph, CrewAI
- **Mobile:** React Native, Expo, Java, Kotlin
- **DevOps & Tools:** Docker, Git, GitHub, GitLab, n8n, Playwright, Vitest
- **Methodologies:** Scrum, Agile, Automated Testing
- **Languages:** Portuguese (Native), English (Advanced), Spanish (Basic)

Education

Rocketseat **Remote**

Postgraduate Tech 360 *05/2025 - 05/2026*

- Specialization in software development focusing on DevOps, Frontend, Backend, Artificial Intelligence and project management, preparing for end-to-end technological solutions.

Postgraduate MBA Fullstack *08/2024 - 08/2025*

- Comprehensive specialization in fullstack development, mobile, agile methodologies, market soft skills and product management, developing technical and behavioral competencies essential for the technology market.

Multivix   Hybrid

Bachelor's Degree in Systems Analysis and Development   *07/2022 - 09/2024*

- Higher education in information technology focusing on analysis, design and development of computational systems, providing solid foundation in programming, databases and software engineering.
